Getting Help

Setting Up Your Account

PayPal's quick registration process can have you accepting payments on your website as fast as today.

Just follow these five simple steps:

The screenshot shows the PayPal sign-up page with the following content:

- PayPal logo and navigation links (Log In | Help).
- Progress bar: Choose Account Type → Enter Information → Confirm → Done.
- Section: **Sign Up for a PayPal Account**
- Text: "Anyone with an email address can use PayPal to send and receive money online. [What is PayPal?](#)"
- Text: "To get started, choose your account type. (All accounts can send payments for FREE.)"
- Options:
 - Personal Account**: Ideal for online shopping. Send and receive payments for free through PayPal's secure network. Personal accounts cannot accept debit or credit card payments. [Learn More](#)
 - Premier Account**: Perfect for buying and selling on eBay or merchant websites. Accept all payment types for [low fees](#). Do business under your own name. [Learn More](#)
 - Business Account**: The right choice for your online business. Accept all payment types for [low fees](#). Do business under a company or group name. [Learn More](#)
- Link: [Already have a PayPal account? Upgrade your Account](#)

1 Sign Up

Go to <https://www.paypal.com/> and click on the **Sign Up** link in the upper right-hand corner of the page. Click on the **Business** link to sign up for a Business account. After completing the form, PayPal will send you an email to confirm your email address.

TIP: Make sure to write down the email address you use and the password you choose; in the future, you will use them to log in to your PayPal account.

The screenshot shows the PayPal 'Enter Password' page with the following content:

- PayPal logo and navigation links (Log Out | PayPal Home | Help | Security Center).
- Search bar.
- Section: **Enter Password** (Secure Transaction icon)
- Text: "Please enter your PayPal password to confirm your email address."
- Form: Password:
- Link: [Forget your password?](#)
- Text: **NEW** [For your security](#)
- Button: **Confirm**

2 Confirm Email Address

Open the email from PayPal and click on the hyperlink in the body. You will be taken to a PayPal page and asked to enter your password. Once you have successfully entered your password, your email address will be confirmed.

3 Add a Credit Card or Debit Card

Log in to your PayPal account and click on the **Profile** sub-tab of the **My Account** tab. Click on the **Credit Cards** link in the **Financial Information** column.

On the Credit Cards page, fill in the requested information and click the **Add Card** button. The credit or debit card you add will become your primary card, meaning it is the default card used on your PayPal account.

GOOD TO KNOW: The credit or debit card billing address you entered when you added your card is now a confirmed address.* Many sellers require that buyers use their confirmed address as their shipping address when they pay with PayPal, a best practice your business may want to consider.

4 Add Bank Account

To quickly withdraw payments you receive to your bank account, take a moment now to add your bank account to your PayPal account. To do this you will first need a check or deposit slip for that bank account. Log in to your PayPal account and click on the **Profile** sub-tab of the **My Account** tab. Click on the **Bank Accounts** link in the **Financial Information** column.

On the **Bank Accounts** page, click the **Add** button.

GOOD TO KNOW: While you can use your PayPal account to accept payments after adding a credit card, your only method of withdrawing funds is by check, which can take 1-2 weeks and costs \$1.50 USD per withdrawal. By adding a bank account, you will be able to withdraw funds to your bank account in 3-4 business days via a free electronic funds transfer.

5 Confirm Bank Account

When you add your bank account, PayPal will send two small deposits, each of less than \$1.00 USD, to your bank account. Check your bank statement in 3-4 business days for the amounts of the two deposits.

After getting the deposit amounts, log in to your PayPal account and click on the **Confirm Bank Account** link in the **Activate Account** box on your **Account Overview**. Enter the amounts of each of the deposits on the page and your bank account will be confirmed and you will become a Verified Member.

GOOD TO KNOW: PayPal buyers are clear: they prefer doing business with Verified sellers (i.e. sellers who have a confirmed bank account). Verification simply lets your buyer know that there's a legitimate seller on the other side of the computer screen...and that builds trust and sales.

* At this time, Confirmed Addresses are only available to Canadian, U.S., and U.K. users. PayPal hopes to offer buyers in other countries the ability to add Confirmed Addresses soon.

Now that you've set up your basic account with PayPal, you're ready to start receiving payments. Just add Website Payments Standard to your website, or use our Email Payments solution to send your customers emails with clickable payment buttons.

TIP: Even if you don't yet have a business website, you can still use PayPal to accept credit card payments. PayPal's Request Money and Invoicing features let you receive customer payments directly into your account. All you will need is the customer's email address to create and send an invoice. Go to the **Request Money** tab after logging in to learn more.

Payments Overview

PayPal makes it easy to add e-commerce functionality to your website and emails. Set up Email Payments or Website Payments Standard to accept secure online payments. Accept all major credit cards, debit cards, bank transfers and PayPal balance affordably. You don't need a separate merchant account and gateway.

Website Payments Standard

- PayPal Shopping Cart**
 Let shoppers browse your site and track their purchases
[Learn More](#)
- Other Shopping Carts**
 Use PayPal with many online shopping carts, or with a custom cart
[Learn More](#)
- PayPal Buy Now Buttons**
 Create payment buttons easily for your website
[Learn More](#)
- Donations**
 Raise funds online easily for your nonprofit organization
[Learn More](#)
- Subscriptions and Recurring Payments**
 Let your customers make recurrent payments
[Learn More](#)

Email Payments

- PayPal Invoicing**
 Send professional invoices to your customers easily and get paid fast.
[Learn More](#)
- Payment Request Wizard for QuickBooks**
 Turn your QuickBooks data into email invoices payable via PayPal
[Learn More](#)
- Payment Request Wizard for Outlook**
 Let customers pay via PayPal from any Outlook email

Website Payments Standard

PayPal Website Payments Standard lets you instantly start accepting all major credit and debit cards, bank transfers, and PayPal payments on your website. Website Payments Standard is:

- **Easy.** Website Payments Standard is simple to set up on your website.
- **Secure.** Our industry-leading fraud-prevention systems and chargeback protection programs help you do business safely.
- **Affordable.** No setup fees, monthly fees or cancellation fees.
You pay just one low fee per transaction—as low as 1.9% + \$0.30.

You can easily **sell multiple items at once** with one of these options:

- **If you already have a shopping cart,** PayPal seamlessly integrates with hundreds of compatible carts or custom-built storefronts.
- **If you don't have a shopping cart,** set up the free PayPal Shopping Cart quickly and easily—or choose from many other popular, compatible carts.

You can also **sell one item at a time**, or collect recurring payments:

- **Easily start receiving payments on your website.** You don't need a shopping cart.
- **Automatically accept subscriptions.**
- **Take donations simply.**

Visit <http://www.paypal.com/standard> to learn more about Website Payments Standard.

PayPal Shopping Cart

The PayPal Shopping Cart provides an easy way for you to create an online store. Customers are able to add multiple items to the PayPal Shopping Cart, continue shopping, and check out through PayPal.

PayPal also supports more than 100 third-party Shopping Carts and Storefront Solutions. [Click here](#) to learn more.

How to get started with a PayPal Shopping Cart

1

Log in to your PayPal account and click on the **PayPal Shopping Cart** link on the **Merchant Tools** tab to create buttons for your website.

2

For each item you are selling, enter the item's details and choose which button your customers will click to add the item to their shopping carts. You can even use your own button.

Shipping and Sales Tax (optional)
Shipping Cost Calculation (optional)

If you would like to add a flat amount shipping cost, enter a flat amount below.

Flat Amount: \$

Note: For this shipping cost to be applied, you need a shipping profile, or if they have been set, you will need to. The currency of the shipping cost will be determined by the currency of the previous page.

| | |
|---------------------------|------------|
| \$0.01 USD - \$9.99 USD | \$0.00 USD |
| \$10.00 USD - \$49.99 USD | \$0.00 USD |
| \$50.00 USD - \$99.99 USD | \$0.00 USD |

Customize Your Payment Pages (optional)
Choose a Custom Payment Page Style to match your website and give customers a seamless payment experience. [Learn more.](#)

Primary Page Style: PayPal
Custom Payment Page Style:

Customize Your Buyer's Experience (optional)
Successful Payment URL - This is where your customers will go after they complete their payment. (e.g. www.yourshop.com)

Successful Payment URL:

Payment Data Transfer: ☐

Cancel Payment URL - This is where your customers will go if they cancel their payment. (e.g. www.yourshop.com/cancel)

Cancel Payment URL:

3

Click **Add More Options** to customize your pages. You can maintain the look of your store on PayPal's payment pages by changing the background color, including your logo, or specifying the URL that customers will return to after completing their payments. For detailed information about customizing your payment pages, go to [Custom Payment Pages](#) in the Advanced Tools section of this guide.

| Qty | Remove | Item | Options | Price |
|-----|---------------------------------------|--|---------|-----------------------|
| 1 | <input type="button" value="Remove"/> | Toshiba 42" 16:9 HDTV Ready Projection TV (price includes shipping) | | \$1,399.99 USD |
| 1 | <input type="button" value="Remove"/> | Northgate w/AMD Athlon XP 2600+ Processor with 13 inch LCD Display - price includes shipping | | \$1,495.94 USD |
| 1 | <input type="button" value="Remove"/> | JVC GR-DVHS10 Camcorder | | \$879.99 USD |
| | | | | Amount |
| | | | | \$3,765.91 USD |

4

PayPal creates customized HTML code for your Add to Cart and View Cart buttons. Follow the on-screen instructions to past this code where you want the buttons to appear on your website.

Your customers add items to the shopping cart by clicking on the **Add to Cart** button on your website. When they check out and pay with PayPal, the payment will be sent directly to your PayPal account. You will receive an email confirming the payment, and the transaction will appear in your Account History. Just ship the items, and you're done!

Getting Help

Compatible Shopping Carts

You can use PayPal with many currently available shopping carts, or with a custom cart or storefront that you've built.

PayPal-compatible shopping carts

If you **need a shopping cart**, PayPal offers hundreds of full-featured carts that are already seamlessly integrated with PayPal's functionality.

- Check our [list of featured shopping carts](#).
- Sign up for the shopping cart that best fits your business needs.
- Select PayPal as your payment processor by following the instructions on your shopping cart provider's website.

If you **currently use a third-party shopping cart** or storefront, you can add PayPal to accept payments easily.

- Sign up for a business account with PayPal.
- Find your third-party provider in the [If you can't find your provider](#), consider switching to one of the listed options.
- Log in with your provider and add PayPal as a payment option.

Custom shopping carts

If you've **built your own shopping cart or storefront**, you can easily integrate PayPal in just minutes. It works seamlessly with your shopping cart and business operations, so you can process payments efficiently.

[Click here](#) to learn more about how to integrate PayPal into your shopping cart or storefront.

Buy Now Buttons

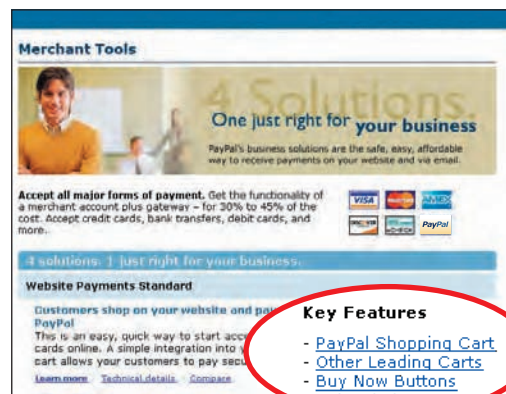

Make it even easier for your customers to pay: add a PayPal Payment Button anywhere you use HTML. With Buy Now Buttons, you can create customized payment buttons to sell individual items on your website. Your buyers will be able to make their purchases quickly and securely on PayPal-hosted payment pages.

TIP: If you're already using a Web publishing tool such as FrontPage or Dreamweaver, PayPal makes it even easier to set up your payment buttons with special add-ins. See the [PayPal Developer Network](#) for more information

GOOD TO KNOW: PayPal offers encrypted versions of its Buy Now buttons, or you can download PayPal's public certificate. Find out more in the [Encrypted Website Payment Hub](#).

How to get started with Buy Now buttons

1

Log in to your PayPal account and click on the **Buy Now Buttons** link on the **Merchant Tools** tab to create a payment button for your website.

2

Enter the item details, then select a button or use your own image to customize the look of your button.

Shipping and Sales Tax (optional)
Shipping Cost Calculation

If you would like to add a flat amount shipping cost, enter a value below.

Flat Amount: \$

Note: For this shipping cost to be applied, you need to have no Shipping Preferences set in your Profile; or, if they have been set, you will need to check the Transaction-based Override checkbox. The currency of the shipping cost will be determined by the currency you chose for the button on the previous page.

| | | |
|-----------------------------|------------|---|
| \$0.01 USD - \$9.99 USD | \$0.00 USD | You are currently calculating shipping costs based on a <u>flat amount</u> method. Edit |
| \$10.00 USD - \$49.99 USD | \$0.00 USD | |
| \$50.00 USD - \$99.99 USD | \$0.00 USD | |
| \$100.00 USD - \$199.99 USD | \$0.00 USD | |
| \$200.00 USD - | \$0.00 USD | |

3

Click **Add More Options** if you wish to enter information about shipping, sales tax, your logo, and the page users are sent to after payment. PayPal then generates the HTML code, which includes all the details of your payment.

4

Follow the on-screen instructions to paste this HTML code onto your website or into your email. You can insert payment buttons right on your product pages. Customers clicking on your **Buy Now** button will be taken to a secure PayPal page to complete the payment.

GOOD TO KNOW: For detailed instructions on how to use Buy Now Buttons, refer to the [Buy Now Button Manual](#) (PDF 568k).

Subscriptions and Recurring Payments

With PayPal Subscriptions and Recurring Payments, you can accept recurring payments for your service. Your subscribers will be able to subscribe quickly and securely from PayPal-hosted payment pages, where they can make initial payments (if necessary) and set up any future payments for the subscription. You can also use PayPal Subscriptions to offer free trials of your product or service.

How to get started with PayPal Subscriptions and Recurring Payments

1

Log in to your PayPal Account and click on the **Subscriptions and Recurring Payments** link on the **Merchant Tools** tab to specify your subscription terms. Recurring periods can be as little as one day or as long as five years. An optional initial trial period can also be set up that is different from the recurring period.

2

You can place Subscribe buttons right on your website pages, or place Subscribe links in your emails. When your customers click on the Subscribe button or link, they are taken to a secure PayPal payment page.

Email Payments

Use PayPal Email Payments for a quick and secure way to bill your customers and accept credit card, bank, and PayPal payments online. You don't even need a web-site—just email your customers an invoice with a button that they can click to pay you. Email Payments is:

- **Faster.** Stop waiting for checks—your customers can pay online immediately.
- **Efficient.** Email invoices by filling out simple forms on the PayPal site, or by using your Outlook or QuickBooks programs.
- **Low-cost.** Receive payments with no merchant account fees, setup fees, or monthly fees. All you pay are low transaction fees to receive payments.

Choose from four different Email Payment options

- Use our simple **Request Money** option to email a payment request in seconds.
- Use **PayPal Invoicing** to email a detailed invoice easily.
- Use **Payment Request Wizard for QuickBooks** to email your customers a QuickBooks invoice that includes a payment button.
- Use **Payment Request Wizard for Outlook** to include a payment button in any Outlook email you send to your customer.

Visit <http://www.paypal.com/email> to learn more about Email Payments.

Payment Request Wizard for QuickBooks

Turn your QuickBooks invoices, statements or estimates into emails that you send to your customers. Your buyers click the included payment button, and pay you instantly via PayPal.

Using data stored in QuickBooks, you can easily create email invoices and estimates that customers can pay online through PayPal. The Wizard creates a professional, formatted email invoice that includes a PayPal payment button. The customer clicks the button, and you get paid for the items on the invoice.

- Integrate your QuickBooks invoice data into your emails
- Avoid extra invoicing paperwork
- Make it easy for buyers to pay you

Best of all, installing and using the Payment Request Wizard for QuickBooks is **free**.

Payment Request Wizard for Outlook

You can also use PayPal Buy Now Buttons in your emails.

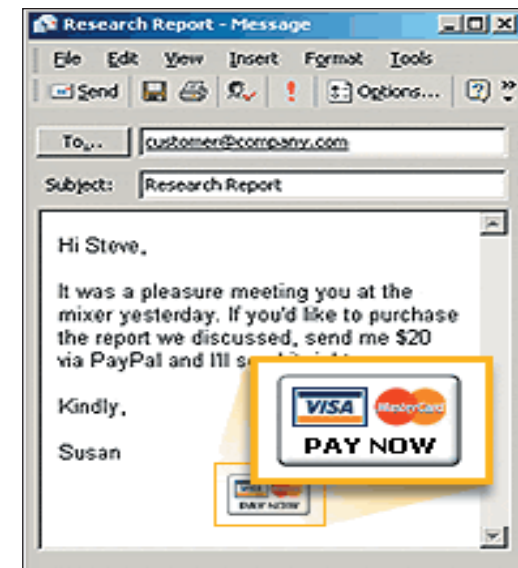

Using the **Payment Request Wizard for Outlook**, you can quickly add PayPal payment buttons to your email messages. When your customers click the button, it takes them to the PayPal website to complete the transaction. Collect money quickly and easily. You don't even need a website!

The Payment Request Wizard lets you:

- Request credit card payments via email
- Track your payments on PayPal's secure website
- Enjoy a fast and free installation

Select from 5 types of payment buttons:

- Basic Payment
- Product Invoice
- Service Invoice
- Auction Payment
- Donations

Improved Checkout: PayPal Account Optional

PayPal's payment flow makes it optional for new buyers to sign up for a PayPal account. That choice makes the purchase process more convenient, resulting in an increase in completed sales and higher customer satisfaction.

The streamlined new payment process applies to both Website Payments Standard and Email Payments. It's included with these features: Buy Now Buttons, Donations, PayPal Shopping Cart, Request Money, PayPal Invoicing, and Payment Request Wizards for both Outlook and QuickBooks. (It does not apply to Subscriptions.)

This checkout takes your customers through four easy steps:

- **Shipping** — Customers enter their name and shipping address.
- **Billing** — Customers enter credit card information, email address, phone number, and an optional message to you.
- **Review** — Customers make sure their payment information is correct. They can either edit the information or complete the checkout process.
- **Save Information** (optional) — Customers can save the information that they've entered into a PayPal account for future purchases. To create an account, all they need to do is choose a password and answer a few security questions.

To turn off this new feature, simply go to the Profile subtab, click on Website Payment Preferences under the Selling Preferences column, and check the yes/no box under PayPal Account Optional.

Virtual Terminal

PayPal's Virtual Terminal feature lets you **accept credit card payments for phone, fax, mail, and in-person orders.**

With Virtual Terminal, you can accept payments in your offline store, at trade shows, or anywhere else you deal with customers. Just enter some simple information about the transaction into a PayPal-hosted online payment form, and PayPal will process the payments.

Virtual Terminal lets you:

- **Accept payments** from customers who either prefer to pay offline, or who don't have PayPal accounts.
- **Use PayPal** as a one-stop payment solution—you don't need a separate merchant account.
- **Keep costs low.** Virtual Terminal is affordable—just \$20 per month.

Apply for Virtual Terminal now

To apply for Virtual Terminal, you need to first [sign up for a Business Account](#). Then, submit an application for Virtual Terminal, get approved, and complete the billing agreement that you will receive.

Setting Seller Preferences

Your Seller Preferences let you customize everything from the look and feel of your payment pages to the types of payments you receive. To set your Seller Preferences, log in to your account, click on the **Profile** sub-tab of the **My Account** tab, and select **Seller Preferences**.

You can customize the payment pages your buyers see when completing their payment through PayPal. You can match the colors and images on these website payment pages to those of your own site, providing buyers with a seamless checkout experience. For details, go to the [Custom Payment Pages](#) in the Advance Merchant Tools section of this guide.

Seller Preferences also lets you manage the types of payments you receive, and set your Credit Card Statement Name, which is the name displayed on your customer's credit card statements when they pay you through PayPal. The name will appear as PAYPAL <*YOURNAMEHERE>, and can be up to 11 alpha-numeric characters.

TIP: By making sure your Credit Card Statement Name is meaningful to your buyers, you can lower the risk of your buyers filing chargebacks against you.

Shipping Calculations

[Back to Profile Summary](#)

Shipping will only be applied to all PayPal Shopping Cart Purchases, Buy Now Buttons, and Donations. Shipping will **not** be applied to payments made with PayPal Subscriptions and Recurring Payments, Winning Buyer Notification, or Instant Purchase (for auctions).

Currency — To view or edit your Shipping Calculations, choose a currency type and click **Select**. If you have Shipping Calculations enabled, your current settings will be displayed after the page refreshes.

Currency: U.S. Dollar (Enabled) [Select](#)

Cost Method — Choose the Flat Amount or Percentage method of calculating shipping costs and click **Select** or **Save**, below. The page will refresh after you have made your selection.

| Cost Method | Description |
|---|--|
| <input checked="" type="radio"/> Flat Amount (\$) | Calculate a flat shipping amount based on the total amount of the purchase. |
| <input type="radio"/> Percentage (%) | Calculate the shipping amount based on a percentage of the total amount of the purchase. |

[Select](#)

Cost and Price Ranges — Enter a shipping cost for each price range. To make changes to the price ranges, click **Edit**.

From your **Profile**, you can automatically manage the amount of shipping and sales tax you charge your customers. PayPal lets you enter a different tax rate for each of the 50 states. In addition, you can charge shipping costs at a fixed rate based on the amount of the total purchase or as a percentage of the purchase price.

GOOD TO KNOW: Keep in mind that currently the shipping and tax rate settings only work with payments sent by U.S. buyers via the PayPal Shopping Cart, Buy Now Buttons, or PayPal Donations.

Shipping Made Easy: Using Integrated Shipping

PayPal has teamed up with the U.S. Postal Service and UPS to provide integrated shipping tools. From your PayPal account, you can calculate shipping costs, purchase and print labels, and track your shipments online.

Here's how it works:

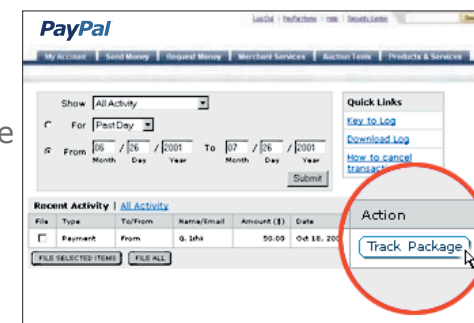

- **Pack** your item in your own packaging or in the carrier's packaging
- **Weigh and measure** your package
- **Create** a shipping label online through your PayPal account
- **Print** your shipping label and attach it to your shipment

Your shipment is ready to go! You and your customer can easily track the status of your shipment via PayPal.

You can access shipping tools on your account overview page after you've received payment for the item you want to ship.

TIP: eBay Sellers: To ship an item sold on eBay, use PayPal's Post Sale Manager.

GOOD TO KNOW: Your printer must produce labels that are clear enough to be scanned correctly.

Withdrawing Funds from Your PayPal Account

You can withdraw funds from your PayPal account by requesting an electronic funds transfer to your bank account, or by requesting that a check be sent to you by mail.

Funds transferred to your bank account should become available within 3-4 business days, but may take more time depending on your bank's policies. For PayPal to send you a check, please allow 1-2 weeks for delivery. While fund transfers are free of charge, each check withdrawal carries a \$1.50 USD fee.

GOOD TO KNOW: Each new PayPal account is limited to withdrawing \$500.00 USD per month until they complete two of our three authentication steps (confirm bank account, enter Expanded Use Number, and confirm Social Security Number). To view or remove your own PayPal Limits, log in to your PayPal account and click on the View Limits link next to the Balance Box on your Account Overview.

Here's how you withdraw funds from your PayPal account:

1

Log in to your PayPal account and click on the **Withdraw** sub-tab.

| Withdraw Funds | | |
|--|-------------------------------------|---------------|
| PayPal offers the following options for getting funds out of your PayPal account. You can earn a return on your PayPal balance with the PayPal Money Market. | | |
| Transfer funds to your bank account | Processing Time | Cost |
| Transfer funds to your bank account | 3-4 Business Days ? | Free! |
| Request a check from PayPal | 1-2 Weeks | \$1.50 USD |
| Shop with a PayPal debit card | Instant (once you get a card) | 1.5% cashback |
| Get cash out of an ATM | Instant | \$1.00 USD |
| Shop online with a PayPal virtual card | Instant | Free! |
| Buy from over 30,000 PayPal Shops | Instant | Free! |
| Pay your bills online with PayPal BillPay | Instant | Free! |

2

Click the **Transfer funds to your bank account** link.

Refunding Payments

You can easily refund payments you receive, including all transaction fees, within 60 days of the payment.

To refund all or just part of a payment, log in to your account and click on the **History** sub-tab of the **My Account** tab. Find the payment in your transaction history and click on the **Details** link to go to the Transaction Details page. To fully or partially refund the payment, go to the bottom of the page and click on the **Refund Payment** link.

GOOD TO KNOW: If you decide to refund a payment more than 60 days after it was sent, you will need to use the **Send Money** tab to send the refund. In this case, your transaction fees will not be refunded.

Selling Safely with PayPal Seller Protection

Protect Yourself from Chargebacks with PayPal's Seller Protection

When you use PayPal to receive payments, you can protect yourself against certain chargebacks by meeting all the requirements of the Seller Protection Policy.

A chargeback occurs when your buyer contests a charge through his credit card company and the credit card company reverses the charge. Unfortunately, as with a traditional merchant account, this often leaves the seller responsible for 100% of the transaction liability.

However, when a transaction qualifies for PayPal Seller Protection and you follow the guidelines below, PayPal will protect you from chargebacks.

Seller Protection Policy requirements (all of these must be met)

- Have a Verified Premier or Business PayPal account
- Ship to the buyer's address displayed on the Transaction Details page
- Ship within 7 days of the payment
- Retain reasonable proof-of-shipment that can be tracked online
- Ship tangible goods
- Only accept a single payment from a single PayPal account
- Respond to PayPal's investigation of the transaction in a timely manner
- Do not surcharge the buyer

Note: At this time, the Seller Protection Policy is only available for U.S. or Canadian sellers transacting with U.S. buyers, and for U.K. sellers transacting with U.K. or U.S. buyers. Eligible transactions will be displayed as Seller Protection Policy Eligible on the Transaction Details page of a payment.

Selling Safely with PayPal Seller Protection

Non-qualifying Transactions

If a transaction does not fully qualify for PayPal Seller Protection coverage, and you have relevant evidence to support your case, PayPal may still help you dispute the chargeback with the buyer's credit card company.

You can provide your documentation through the Resolution Center, which you can access near the top of the page when you login to your account (you can also send it via email to chargeback-response@paypal.com or fax it to 402-537-5755; please include your PayPal Case ID in the subject of their email or on a Fax Cover Sheet). PayPal uses your evidence plus any evidence PayPal may already have to dispute the chargeback with the buyer's credit card company. Because credit card companies impose short deadlines on responding to chargebacks, you should respond within 3 days after you're notified of a chargeback (you'll find response deadlines in the notification email sent to you by PayPal).

PLEASE NOTE: PayPal reserves the right not to dispute a chargeback even if the seller has provided some evidence, particularly if PayPal believes the dispute is not likely to be successful.

GOOD TO KNOW: If you decide to ship internationally outside the Seller Protection Policy, you should still retain proof-of-shipment, ship promptly, and only accept a single payment from a single PayPal account.

TIP: For additional information on the Seller Protection Policy and mitigating your risk, visit PayPal's Security Center by going to the **Security Center** link in the footer of any PayPal page.

Viewing Your PayPal Reputation and Verification Status

Member Information

About **mellieebrewn@hotmail.com**:

To protect your security, PayPal offers information on the status of this member.

| | |
|-------------------------------|---------------------|
| Seller Reputation: | (12)Verified Buyers |
| Account Status: | Verified |
| Account Type: | U.S. Premier |
| Account Creation Date: | Mar. 12, 2003 |
| PayPal Member For: | 1 year 2 months |

- Member accepts all payments

Seller Reputation
The Seller Reputation Number measures how many Verified PayPal members have paid that seller. New transactions are added 30 days after they occur, to ensure that the Reputation Number reflects successful exchanges.

Your Member Information Box gives prospective buyers the opportunity to learn a little more about you before they make payment. Buyers will see a link to your Member Information Box on the Send Money Confirmation page, and, if you sell in PayPal Shops, it will appear as a numeric link next to your name [e.g. PayPal Shop (20)].

The number in parentheses next to your Verification Status is your Seller Reputation Number. This shows the number of unique Verified buyers who have paid you. New transactions are added after 30 days, and only transactions of more than \$5.00 USD will count towards your Seller Reputation Number.

Multi-User Access

Multi-User Access - Current Users

The Multi-User Access feature allows the Account Owner to give multiple users various levels of access to a single PayPal account. The Account Owner is the Administrator, or the person who grants access rights, of the PayPal account. [See Demo](#)

To use Multi-User Access, you must first specify an email address for your Email Administrator. The Email Administrator will receive all email notifications regarding your account's activity.

The Email Administrator provides an additional method of control over your account. Please be careful with this email address. We recommend this email address not receive payments.

Please select an email address for your Email Administrator and click **Continue**.

Note: If your PayPal account only has one email address, click the **Add an Email Address** link to add another email address. After you add and confirm the email address, you can return to this page and select the email address as your Email Administrator.

[Add an Email Address](#)

3

Specify your Administrative Contact email address, which is the email address that will receive notifications about your account activity.

User's Name: (First and Last)

The User ID must be between 10 and 16 characters long, can only contain letters and numbers (no special characters), and is NOT case sensitive.

User ID:

Re-enter User ID:

Password:

Re-enter Password:

Multi-User Access

Check the box next to each of the privileges for which this user has permission:

| | |
|--|---|
| <input type="checkbox"/> Send Money | <input checked="" type="checkbox"/> Withdraw Funds |
| <input type="checkbox"/> Mass Payments | <input checked="" type="checkbox"/> Cancel Payments |
| <input type="checkbox"/> Request Money | <input type="checkbox"/> View Balance |
| <input type="checkbox"/> Add Funds | <input checked="" type="checkbox"/> View Profile |
| <input type="checkbox"/> Refunds | <input type="checkbox"/> Edit Profile |
| <input type="checkbox"/> Bill Pay | <input type="checkbox"/> Scheduled Downloadable Log |

4

Add up to 200 separate logins to your account. For every login, select a User ID and password, and specify what account privileges the user has permission to access (e.g. Refunds, Send and Request Money).

TIP: You may want to establish a separate login for each employee who accesses your PayPal account, and grant each user the minimum access necessary. If an employee forgets or loses a password, you can always log in and reset it.

GOOD TO KNOW: You can create additional logins, edit an existing user's privileges, or delete a login at any time from your Profile.

PayPal ATM/Debit Card

The fastest way to access your PayPal funds

The PayPal ATM/Debit Card offers you instant access to the money in your PayPal account. Withdraw cash at an ATM or use it anywhere MasterCard is accepted.

To learn more, or request your PayPal ATM/Debit Card, log in to your account and click on the **ATM/Debit Card** link in the **Enhance Account** box on the Account Overview page.

The PayPal ATM/Debit Card is open to members who meet the following criteria:

- Have a U.S. PayPal Premier or Business Account
- Have been a PayPal member for at least 60 days
- Have registered a credit card where the monthly statement is sent to a physical street address (not a P.O. Box)
- Are a Verified Member (have added and confirmed a bank account)
- Are an active PayPal member in good standing

Selling Internationally

It's easy to sell internationally with PayPal. With more than 45 million accounts in 38 countries, PayPal can help you reach buyers from almost anywhere in the world, so you can continue to grow your business globally.

You can always withdraw funds in your PayPal account to a U.S. bank account, and PayPal also accepts withdrawals to local bank accounts in 24 countries. In addition, PayPal's Multiple Currencies feature lets you accept payments in U.S. Dollars, Canadian Dollars, Euros, Pounds Sterling, and Yen.

Accepting Multiple Currencies

Here's how you can handle foreign currency with PayPal

- When you receive a payment in a currency in which you do not already hold a balance, PayPal will prompt you to open a balance for that currency, convert to your primary balance, or deny the payment. Payments in currencies for which you hold a balance will automatically be applied to the correct balance.
- You will see a summary of each currency balance on your **Account Overview** page.
- You can manage your currency balances in your **Profile**. This includes opening and closing balances, as well as transferring between balances.
- Transferring funds between different currency balances is easy and instant. A foreign exchange calculator is provided to help you determine the exact amount prior to completing the transfer.
- You can auto-convert payments to your primary currency via a **Payment Receiving Preference** in your **Profile**. This is useful if you wish to display prices in different currencies, but only do business in a single currency.

[Setting Up
Your Account](#)[Accepting
Payments](#)[Handling

Selling on an Auction

PayPal offers a full suite of auction tools to assist you in managing your auctions and eBay listings. You'll be able to stay on top of your items, from sales to invoicing to payment collection. You can view all of PayPal's auction products from the Auction Tools tab, located at the top of every PayPal page.

LOGO INSERTION Make payments even easier for your buyers: add a PayPal payment logo to your listings.

Here's how you add a PayPal logo to all your new listings:

1. Log in to your PayPal account.
2. Click on the **Automatic Logos** link on the **Auction Tools** tab.
3. Enter your eBay User ID and password, and click the **Off** button for Automatic Logo Insertion. Select **On** and click **Update**. PayPal will be added as an accepted payment method for all your U.S. listings. A smart logo will be added to any non-U.S. listings. You can also add a PayPal logo to your listings manually. Simply log in to your PayPal account and click the **Manual Logos** link on the **Auction Tools** tab.

TIP: When you use a Smart Logo on your eBay listings, the logo changes depending on the state of your listing. It begins as a standard logo, and then becomes a **Pay Now** button as soon as your listing has ended, so your buyer can pay you instantly.

Selling on an Auction

WINNING BUYER NOTIFICATION (WBN)

Sign up for PayPal's free Winning Buyer Notification (WBN) service, and we will automatically notify your winning buyer of your eBay items closing. You'll get your money faster when you invoice your buyers instantly.

WBN emails include all of the information your winning buyer will need, including a link back to the item listing and a PayPal Payment Button. Each email includes:

- A link to a secure PayPal payment page with the item details already filled in
- Your instructions on shipping, handling, and payment
- A customized message from you
- Your logo and email address

Here's how you get started with WBN:

1. Log in to your PayPal account.
2. Click the **Winning Buyer Notification** link on the **Auction Tools** tab.
3. Enter your eBay User ID and password. You can also customize the email notification each buyer will receive.

Instant Payment Notification (IPN)

PayPal's Instant Payment Notification (IPN) service immediately notifies your backend server with an HTTPS post whenever you receive a payment. You can use IPN to integrate PayPal payments with your website's back-end operations, helping you save time, keep your inventory updated, and automate fulfillment. With IPN, you can:

- Customize your website's response to customer purchases in real time
- Track customers through the notification's pass-through variables
- Automate your fulfillment operations
- Store transaction information in your own database

GOOD TO KNOW: Using IPN requires custom programming by your web development team to interface with a back-end database. Alternately, some third-party vendors offer products to help you manage your PayPal payments. To learn more about IPN and the many other developer tools offered by PayPal, go to the PayPal Developer Network (PDN) by clicking on the "Developers" link in the footer of any PayPal page.

Here's how you get started with IPN:

1. Log in to your PayPal account.
2. Click on the **Instant Payment Notification** link on the **Merchant Tools** tab.
3. You'll be taken to the IPN Center where you can view a demo, read the manual, and sign up for IPN.

Mass Pay

Replace checks with instant email payments. PayPal lets you avoid the slow, tedious process of writing and disbursing checks to large numbers of people. And Mass Pay is inexpensive: a fee of just 2% of the payment amount, up to a \$1.00 USD cap, will be added to each payment.

Use PayPal Mass Pay for:

- Affiliate commissions
- Customer rebates
- Employee benefits
- Lottery prizes
- Survey incentives

GOOD TO KNOW: There must be sufficient funds in your account to cover the Mass Payments and applicable fees. You cannot use a credit card or bank account for this service.

Mass Pay

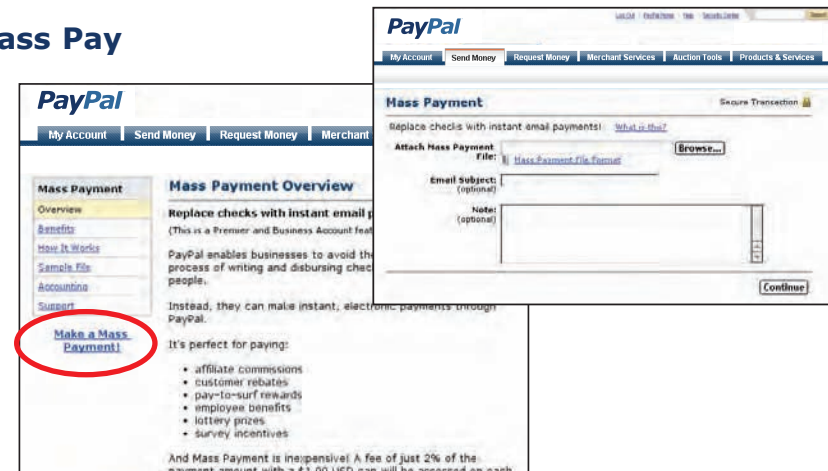

Here's how you get started with Mass Pay

| | A | B | C | D |
|---|-----------------|---------|--------------|--------------------------------|
| 1 | name2@email.com | \$10.50 | customer#001 | |
| 2 | name2@email.com | \$1.22 | asdf-1234 | Thanks for your business! John |
| 3 | name3@email.com | \$0.82 | | CALL 1-800- ANY-TIME for help |
| 4 | name4@email.com | \$4.99 | 4555-2345 | |
| 5 | | | | |
| 6 | | | | |
| 7 | | | | |

1

Create a simple tab-delimited text file that lists the email address in the first column and the payment amount in the second column. An optional third column lets you list a unique identifier for each recipient, for tracking and reconciliation purposes. And, an optional fourth column lets you add custom notes for each recipient.

2

Click on the **Mass Pay** link in the footer and then click on **Make a Mass Payment** on the **Overview** page. You will be prompted to upload your Mass Payment file and customize the email notification that is sent to your recipients.

Click **Continue** to confirm your payment, and then click **Send Money** to complete your transaction. Your recipients can claim their money by clicking on a link within their payment email notification.

PayPal Shops

PayPal Shops is a directory of over 42,000 online businesses and organizations that accept PayPal payments. Enrolling in PayPal Shops puts your online store into the directory for free, and allows millions of PayPal members instant access to your website.

PayPal members can easily search for your product or service through our PayPal Shops directory and can be confident that they are purchasing from a reputable seller. PayPal Shops provides customers with a direct link to your online store, encouraging them to view additional products and services.

GOOD TO KNOW: To create the most secure marketplace possible, we require all PayPal Shops sellers to have a Premier or Business account, a confirmed bank account, and a registered credit card.

PayPal Shops sellers must also have a PayPal Money Market Fund account, which requires either a Social Security Number or an Employer Identification Number. Having this information helps PayPal prevent fraud and ensure a safe shopping environment for our members.

To enroll your online store in the PayPal Shops directory, login to your account, then visit <https://www.paypal.com/APPLYSHOPS>.
