## 2 Select Manage Profile from Main Menu

The screenshot displays the Merchant Administration interface. At the top left is the Cardinal Commerce logo. To the right are links for 'MAIN MENU' and 'LOGOUT'. Below this is a horizontal red line. The main heading is 'MERCHANT ADMINISTRATION' in a large, bold, green font. On the left side, there are two buttons: 'SECURITY POLICY' and 'PRIVACY POLICY'. Below these is a section titled 'Choose an Option from the Menu.' with a red arrow pointing to the 'Manage Profile' link in the 'Main Menu' list. The 'Main Menu' list includes: 'Documentation and Software' (Request Centinel Integration software and documentation), 'Reporting' (View summary reports and report on authentication activity, payment activity, notification activity, and batch activity), 'Payment Terminal' (Perform payment transactions), 'Manage Profile' (Manage your merchant profile information, payment initiative configuration, account password and contact information), 'Marketing Materials' (Download images and documentation covering the use of the programs supported by the system), and 'View Agreement' (View your user license agreement).

Success

- 5 Hit Enter to Save. A Transaction Password is now completed.

\*\*For assistance contact [implement@cardinalcommerce.com](mailto:implement@cardinalcommerce.com)\*\*

- 6 Log into your Magento Admin
- 7 Select "System" then Select "Configuration" from the drop-down
- 8 Select "PayPal" on the left side
- 9 Enable "Websites Payments Pro"

The screenshot shows the Magento Admin configuration page for PayPal. At the top left is the "PayPal" logo, and at the top right is a "Save Config" button. Below the header is a "Merchant Account" section with two fields: "Merchant Country" (set to "United States") and "Email Associated with PayPal Merchant Account" (empty). Below this is the "Select a PayPal Solution" section, which lists several options with checkboxes. The "Website Payments Pro" option is selected and highlighted in yellow. Other options include "Express Checkout", "Website Payments Standard", "Website Payments Pro Payflow Edition", "Payflow Pro Gateway", and "Express Checkout" (repeated).

**Merchant Account**

Merchant Country:  (WEBSITE)  
▲ If not specified, Default Country from General Config will be used

Email Associated with PayPal Merchant Account:  (WEBSITE)  
▶ [Start receiving payments via PayPal](#)

**Select a PayPal Solution** [Help](#)

- Express Checkout – Add an Express Checkout button to your existing shopping cart for quick and easy credit card payments. PayPal handles all payment processing. [View Demo](#) | [Learn More](#)
- Website Payments Standard – PayPal processes all of your orders, and you get paid. [View Demo](#) | [Learn More](#)
- Website Payments Pro – Process credit cards directly on your website with PayPal's all-in-one online payment processing solution. [View Demo](#) | [Learn More](#)
- Website Payments Pro Payflow Edition (includes Express Checkout) – Accept PayPal payments in your shopping cart. PayPal will process your credit card payments through the Payflow Pro Gateway.
- Payflow Pro Gateway – Don't have a PayPal merchant account? You can still accept credit card payments through the Payflow Pro Gateway. [Learn More](#)
- Express Checkout – Accept payments without customers leaving your website. Many popular web-hosting services and shopping carts come with the Payflow payment network built in, so they are easy to set up.

- 10 Enable the following settings:
- 3D Secure Validation: YES
  - Severe 3D Secure Validation: NO
  - Centinel Custom API Url: <https://paypal.cardinalcommerce.com/maps/txns.asp>

The screenshot shows the 'Website Payments Pro Settings' page in the Magento Admin interface. The '3D Secure' section is highlighted with red arrows pointing to 'Yes' for '3D Secure Card Validation' and 'No' for 'Severe 3D Secure Card Validation'. The 'Centinel Custom Api URL' is set to 'https://paypal.cardinalcommerce.com/maps/txns.asp'.

Field	Value	Target
Title	PayPal Direct Payment	(STORE VIEW)
Sort Order		(STORE VIEW)
