

Digital Payments for Government

Make payments fast, easy, and secure for your agency and your citizens.

24/7 fraud detection.

We work hard to help keep your agencies' and citizens' financial information secure. We don't share full financial information with agencies, we encrypt every transaction, and we work to continuously evolve our fraud detection tools.

Your choice of solutions.

PayPal partners with a wide range of leading government solution providers, combining our payments expertise with their applications to meet the needs of clients from federal agencies to municipal utilities.

PayPal Government Solutions: Federal, state, and local.

PayPal helps government agencies offer citizens a convenient and secure payment experience online, at the counter, or on the go. Our fraud protection helps make government payments easy, secure, and cost-effective.

So many ways to pay.

Online, mobile, or point of sale. Debit, credit, or PayPal. ACH, eCheck, or PayPal Credit.* Constituents pay nearly wherever and however they want, making it easier to pay – and to get paid.

Transparent pricing.

Our prices are transparent – there are no long-term contracts or activation fees, just simple, low fees.

Get started today.
