

CREATE AND SEND PROFESSIONAL INVOICES

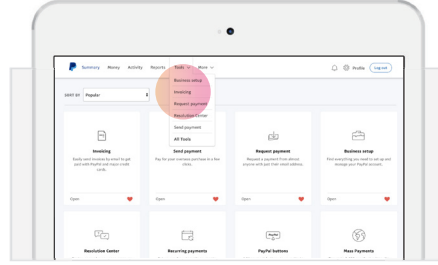

Send an invoice in just seconds and get paid

If you need to send invoice to your customers, you can create, email the invoice or share the invoice link directly from your PayPal account. Your customer can click and pay you straight from the invoice, or choose to pay with a credit or debit card linked to their PayPal account.

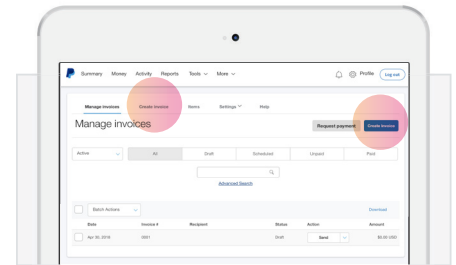

Step 1

Log in to your PayPal account at www.paypal.com/kr

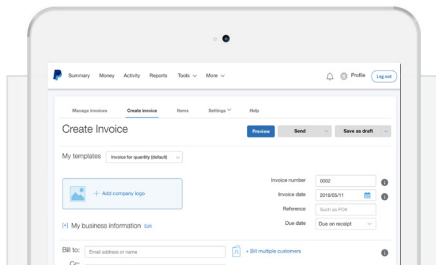

Step 2

Click on **Tools** and look for **Invoicing**.

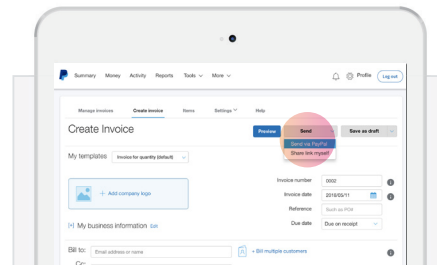

Step 3

Click on **Create Invoice**.

Step 4

Enter your customer's email address, payment amount, description and any other information needed.

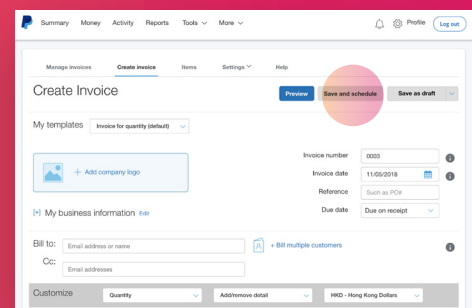

Step 5

Click to expand the **Send** dropdown to either **Send via PayPal** or **Share link myself*** directly.

*Because invoices contain your customers' personal information, never share the invoice link in a public forum.

HOW TO SCHEDULE AN INVOICE

- Step 1** Create an invoice.
- Step 2** Select a future invoice date you wish to schedule your invoice for.
- Step 3** Enter your customer's email address, payment amount, description and any other information needed.
- Step 4** Select **Save and schedule** and your invoice will be saved and sent on your scheduled date.

CREATING CUSTOMIZED, PROFESSIONAL INVOICES

You can customize your invoices with your own branding to create a more professional image for your clients.

- Add your logo and business information
- Include contact information like email, address, phone number and website details
- Make sure your business name listed is familiar and recognizable to your customers

HOW TO CREATE A CUSTOMIZED INVOICE
