# PayPal Express Checkout: An easy installation guide.

Express Checkout offers a quicker, easier payment experience for your customers. Your customers can make a purchase without entering any of their details; they just click 'Checkout with PayPal' and we'll send you their payment and shipping details.
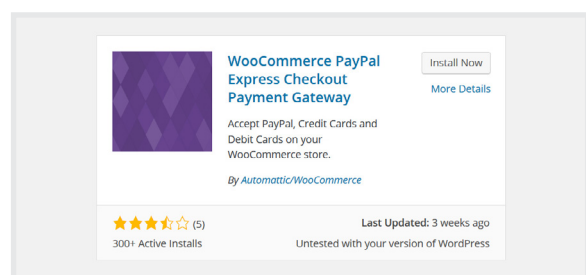

First, install the plugin.

1 Click "Plugins", then "Add New".

2 Search for "WooCommerce PayPal Express Checkout Payment Gateway".
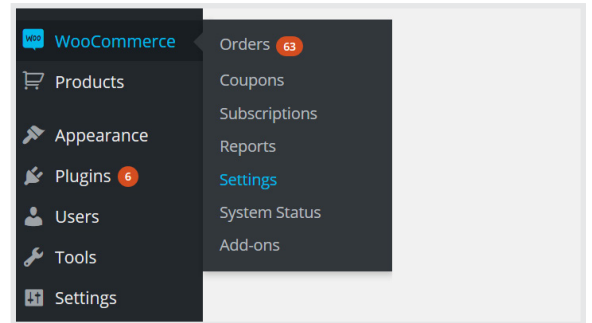

3 Click "Install Now" and activate the plugin.

Next, set up your checkout.

1   Click "WooCommerce", then "Settings".

2   Click on the "Checkout" tab.

3   Click "PayPal Express Checkout".
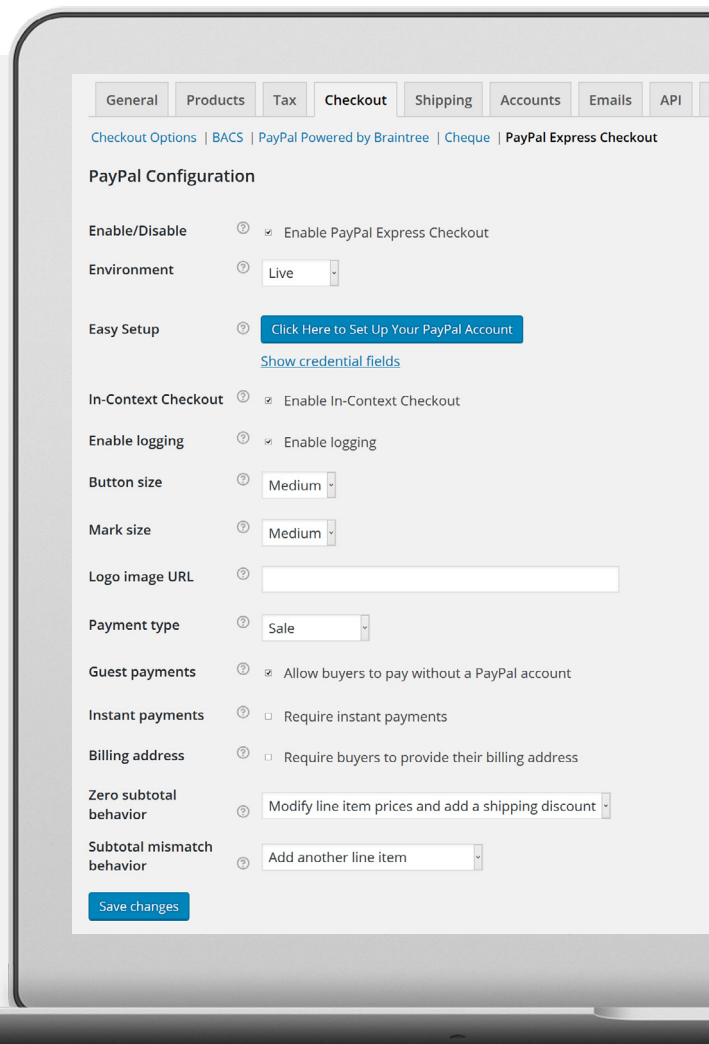

4   Select "Enable PayPal Express Checkout".

5   Change "Environment" to "Live".

6   Under "Easy Setup", click the button to set up your PayPal account.

7   Select "Enable In-Context Checkout".

8   Save your changes.

You're now ready to start taking payments with Express Checkout.
