- You can use PayPal to raise money through mobile devices and on social sites, too.

Boost your fundraising and lower costs by raising more money online and in person.

With PayPal, you can make it as easy as possible for donors to give online. They don't even need a PayPal account to donate – PayPal lets you accept all major debit and credit cards (Visa, MasterCard, American Express, and Discover), plus e-checks, bank transfers, and payments from PayPal accounts. It costs much less than traditional fundraising methods, and can yield better results.

PayPal online solutions are optimized for mobile donation, and we're ready to help you attract more donations from mobile users. In fact, PayPal processed \$66 billion in mobile payment volume in 2015.²

Nonprofits of all sizes are using PayPal to:

- **Reach new donors.** Tap into the growing PayPal base of more than 179 million active accounts in 203 markets.²
- **Raise money cost effectively.** PayPal's affordable fees mean you get to keep more of the donations you receive.
- **Attract donors from around the world.** Accept donations in 26 currencies. Keep a balance in one or more currencies, or have PayPal convert it automatically into the currency of your choice.³

Safe, easy, trusted.

PayPal is secure, so your supporters can donate knowing their financial information will be protected. Also, since payment takes place over PayPal's secure webpages, you don't have to worry about PCI compliance or storing customer data for PayPal transactions.

PayPal can help your nonprofit raise more money and do more good.
