Maintain Compliance Without Ceding Control

Remove your platform from the flow of funds, while also maintaining the ability to direct who gets paid, how much, and when. Quickly settle inbound funds from PayPal and Braintree thanks to direct integrations. Need to maintain additional payment service providers? Hyperwallet's technology can also settle funds directly from your existing merchant acquirers.

Build Loyalty and Improve Recruitment

With PayPal payouts, your platform can help improve worker retention rates and drive loyalty by offering a wide range of fast

payout options including digital methods like Venmo and PayPal. Looking to expand your recruiting pool? Offering unbanked payout methods, like prepaid cards and cash pickup, can help your platform gain a recruiting advantage over competitors that require workers to register a bank account as part of the onboarding process.

Own the Payee Interface and Experience

Hyperwallet's Embedded Payout Experience makes it easy for your on-demand platform to integrate payout technology directly into an existing website or application using prebuilt drop-in UI components and our payout REST API.
