

# Professional invoicing made smart and simple with PayPal

Get paid quickly, securely, and without any hassle through PayPal Online Invoicing. In just a few clicks, send professional invoices that customers can immediately pay using their preferred methods – even without a PayPal account.

By simplifying reconciliation with PayPal, getting time back to focus on growth, customer relationships, and building your brand.

## Send invoices anywhere. Grow everywhere.

### Global Payments

Make customer transactions in over 200 markets and across 20+ currencies. With a global reach of up to 400M users, expand your business, revenue, and market presence to grow with no limits.

### Payment Security

Get paid with confidence, knowing eligible transactions will be protected with PayPal's Seller Protection.<sup>1</sup> Avoid losses from disputes, build trust with customers, and keep your business moving with confidence.

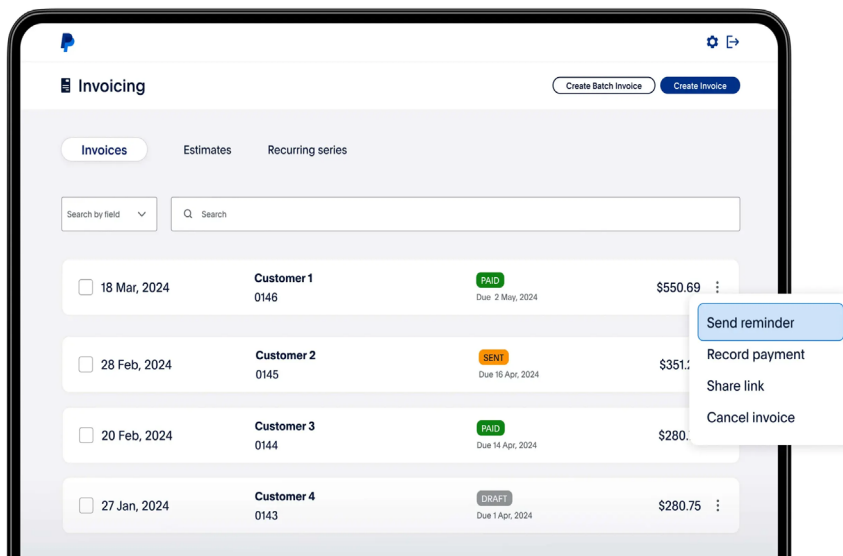

### More payment choices

Offer more ways to pay, so your customers have a choice. Accept PayPal, Apple Pay<sup>2</sup>, and credit or debit cards to reduce payment friction and make transactions seamless.

**79% of PayPal**  
invoices get paid  
on the same day.<sup>3</sup>

**74% increase** in the likelihood of users  
completing a purchase from an unknown  
merchant when PayPal is present at checkout.<sup>4</sup>

# An invoicing experience that works for you and your customers.

PayPal's online invoicing is secure, simple, and scalable. Skip the hassle of manual invoicing and keep your billing process stress-free, so that you can focus on growth rather than paperwork.

## Create invoices that are brand touchpoints.

Use templates to create customised invoices with your branding, product, pricing, and shipping details while letting customers pay with popular payment methods. It's a seamless payment experience that can help protect you from fraud.

## Save time with streamlined invoicing.

Send out digital invoices as a link or QR codes from your phone, freeing up time spent on manual work. Use the PayPal Business App when you're on the go or connect your accounting platforms to the Invoicing API for invoicing at scale.

## Stay in control and never miss a payment.

Take control of cash flow by tracking payments in real time, managing receivables, and setting up smart reminders - all in one dashboard. Whether it's a one-time or recurring payment, get paid on time, quickly.

## Invoice smarter, get paid faster.

Streamline your invoicing with a professional solution that enables global payments. Create unlimited invoices to get paid quickly and give your customers an easy payment experience - all with no upfront costs or subscription fees. Start Invoicing with PayPal today.
