

PayPal Alternative Payment Methods Agreement

Last updated on 29 September 2025

These are the terms of a contract between you and PayPal UK Ltd (“PayPal”, “we” or “us”).

1. About these terms

These terms apply to your use of any of our **APM functionality**.

For reference:

- **APM functionality** is functionality provided by us which, if integrated into your online checkout or by sending an invoice as a payment request, enables your customer to select and use any **alternative payment method (APM)** (as we may allow from time to time) to pay you; and
- an **alternative payment method (APM)** is any payment method listed in Annex 1 or Annex 2, which we may allow anybody to use without an Account to send a payment to your Account, subject to these terms.

The User Agreement for the country where you are registered with PayPal as resident forms part of these terms. Capitalised words which are not defined in these terms are defined in that User Agreement. As much as possible, these terms and the User Agreement should be interpreted as a consistent whole. Where a conflict of interpretation arises, these terms override the User Agreement to the extent of the conflict.

The definition of our Services in the User Agreement, when read together with these terms, includes our **APM functionality**.

2. Accepting these terms

You agree to these terms by integrating our APM functionality into your online checkout/ platform or by sending an invoice as a payment request.

If you integrate our **APM functionality** for the Account of another person or legal entity:

- you confirm that you have the permission of that other person or legal entity to legally bind them to these terms for and on their behalf; and
- that other person or legal entity will be legally bound by these terms instead of you.

Your use of the **APM functionality** is subject to the fees set forth on the PayPal Merchant Fees Page, incorporated herein. Additionally, where available in your region, a separate transaction fee

and cross-border fee may apply to the **APM functionality** described at Annex 2.

3. Using APM functionality

When you integrate our **APM functionality** into your online checkout or send an invoice as a payment request, we may (but are not obliged to) allow anybody to use an **APM** to pay you.

Annex 1 and Annex 2 of these terms list each **APM** which we may make available to your customers from time to time and further provisions relating to your receipt of payments from customers using that **APM**. You must comply with those provisions at all times.

As the payer does not use a PayPal Account to send an **APM** payment, you may not use PayPal to proactively refund **APM** payments, unless otherwise stated in Annex 1 or Annex 2 of these terms.

You may not receive **APM** payments in currencies other than those stated for the given **APM** in Annex 1 or Annex 2 of these terms.

You may use our **APM functionality** only with a Business Account and not a Personal Account, except for your use of a Personal Account to send an invoice as a payment request for goods and services.

4. Your liability to us

We may treat the **APM** providers and the payment processors which help us to enable you to receive **APM** payments in the same way as we treat our bank/card acquirers and/or other payment processors under the User Agreement.

APM payments are at risk of reversals by the **APM** provider unless otherwise stated in Annex1 or Annex 2. Your obligations and liability towards us for these reversals are the same as those you have towards us for Reversals (e.g. Missing Funds) and/or Chargebacks under the User Agreement. The **APM** provider may influence the reversal of an **APM** payment in the same way as the payer's bank may influence a Reversal and/or the payer's card company may influence a Chargeback. Seller Protection does not apply to APM payments.

After termination of these terms you will continue to be liable towards us under these terms for reversals of **APM** payments by the **APM** provider and all your outstanding obligations arising from your use of the **APM** functionality prior to termination.

5. Changes and termination

We may add to or remove from the list of **APMs/ APM** providers in Annex 1 or Annex 2 of these terms at any time and without notice.

We may revise the fees connected with the **APM functionality** described at Annex 2 at any time upon 60 days' prior notice to you.

Otherwise, we may amend, delete or add to these terms in line with the Change process set out in the User Agreement. If you do not agree with any Change, you may terminate these terms.

You may terminate these terms at any time by removing our **APM functionality** from your online checkout and following any other integration-related steps which PayPal may make available to you from time to time, or if applicable, by ceasing use of the invoicing product made available to you by PayPal. This lets you stop allowing your customers to use an **APM** to pay you, but otherwise your Account remains open and the User Agreement remains in effect.

We may, at any time, for any reason and (where possible) with reasonable prior notice, terminate, cancel or suspend the Service to the extent it relates to our **APM functionality** and/or **APMs** without liability towards you.

These terms survive any termination to the extent and for so long as we require to: (i) deal with matters arising from your use of the **APM functionality** prior to termination; and/or (ii) comply with applicable laws and regulations.

Annex 2

Klarna Terms and Conditions

The following terms and conditions ("Agreement") apply to the use of Klarna services for Merchants and are a part of the PayPal terms of use by reference.

1. Klarna Services

Klarna is a product made available to PayPal merchants bound by the PayPal User Agreement ("**Merchants**") who want to offer their buyers ("**Customer**"), the ability to pay for goods and services online via Klarna (the "**Service**" or "**Services**"). For this purpose, PayPal offers a product in cooperation with Klarna ("**Klarna**") on the PayPal platform.

Provided that a Customer uses the Services in connection with a purchase in the Merchant's store, PayPal submits on behalf of Merchant a transaction request to Klarna for approval . Klarna will then perform an assessment of the transaction and the Customer, e.g. in relation to the Customer's creditworthiness. If the assessment of the transaction is acceptable to Klarna, Klarna agrees to allow the Customer to pay for its purchases via the Services.

An authorization for the respective amount is then made. Klarna will manage the collection of each Claim assigned to it.

Klarna will control, in its sole discretion, all decisions concerning Customer transaction approvals and underwriting of Customer's use of the Services, including decisions on applicable credit limits for Customers and the Service offering to Customers. Klarna unconditionally reserves the right not to provide the Services with regards to a particular Merchant.

Where the Customer makes a purchase of goods or services from the Merchant and uses the

Services to pay for the purchase, Klarna has the sole right to receive payment from the Customer in relation to that purchase. The right to collect payment following a purchase paid with Klarna by a Customer is hereinafter referred to as a "Claim". Said Claim originates from the Merchant's exclusive right to receive payment from Customers and may thereafter include additional credit features added by Klarna in relation to the respective Customer. PayPal will credit the purchase price for the Claims to the Merchant's PayPal Account as further outlined below, regardless of any payment by the Customer.

Please see the Prohibited or Restricted Merchant Policy as updated and amended from time to time at https://cdn.klarna.com/1.0/shared/content/policy/ethic/en_gb/merchant.pdf for any specific prohibited or restricted goods and services.

The Klarna Merchant Integration Guidelines as updated or amended from time to time can be accessed here: <https://developer.paypal.com/limited-release/apm/klarna>

2. Requirements for the use of Klarna services

The Merchant shall adhere to the following requirements in relation to the Services:

- a. It is understood and agreed that any marketing activity conducted in respect of the Services shall be limited to the use of the Services for the purposes of purchasing the products or services of the Merchant. When marketing and using the Services, the Merchant warrants that it will observe and comply with all applicable laws and regulations and other provisions and guidelines issued by any public authority. In relation to any marketing activities that may not reasonable be considered as part of the aforementioned standard usage, the Merchant accepts that it needs prior approval from Klarna.
- b. The Merchant acknowledges and agrees that it is the Merchant's sole responsibility to ensure that all laws and regulations relating to VAT, GST or any equivalent value added sales tax are complied with and that, if specific information has to be provided by the Merchant to Customers under local applicable laws, or if a Customer requests certain information to be provided by the Merchant (e.g. specific sales tax or other tax information), it is the Merchant's responsibility to provide a document containing such information. Such aforementioned documents shall not contain any bank details of the Merchant. Should the content of the document sent out by the Merchant lead to an increased number of complaints (e.g. due to Customers paying to the Merchant's bank account or using incorrect reference numbers), the Merchant will, in cooperation with Klarna, adjust the content of such documentation to mitigate such problems.
- c. The Merchant shall not (i) impose any fees or penalties on the Customer on the basis that the purchase is made through the Services, or (ii) act in a discriminatory manner towards Klarna in any other way.
- d. The Merchant represents and warrants that it will comply with all applicable laws and regulations (including without limitation, laws and regulations related to Merchant's provision of its goods and services and marketing laws). The Merchant undertakes to comply with Klarna's reasonable instructions to enable it to comply with applicable laws and regulations related to the Services.

e. SETTLEMENT

- i. Klarna has no responsibility with regards to settlement to the Merchant following settlement by Klarna to PayPal. Klarna will initiate payout for any assigned Claims to PayPal after deduction of any amounts owed to Klarna by PayPal , including but not limited to repayments for Claims reversed by Klarna. PayPal will then settle to Merchant in accordance with the terms of this Agreement.
- ii. If payment has been made by the Customer directly to the Merchant, the Merchant must within a reasonable timeframe refund such payment through PayPal, or in another way clearly communicate this to PayPal, and inform the Customer to pay directly to Klarna.

f. INTELLECTUAL PROPERTY

Klarna retains all ownership and intellectual property rights to anything developed by Klarna and provided to or accessed by the Merchant under the Agreement. The Merchant specifically undertakes never to use any sign, button or trademark that could be considered confusingly similar to a Klarna trademark.
