If you choose to create an account connection, we may receive information from the third-party about you and your use of the third-party's service. For example, if you connect your account to a social media account, we will receive Personal Data from the social media provider via the account connection. If you connect your account to other financial accounts, directly or through a third-party service provider, we may have access to your account balance and transactional information, such as purchases and funds transfers. We will use all such information that we receive from a third-party via an account connection in a manner consistent with this Privacy Statement.

Information that we share with a third-party based on an account connection will be used and disclosed in accordance with the third-party's privacy practices. Before authorizing an account connection, you should review the privacy notice of any third-party that will gain access to your Personal Data as part of the account connection. For example, Personal Data that PayPal shares with a third-party account or platform such as a social media account may in turn be shared with certain other parties, including the general public, depending on the account's or platform's privacy practices.
