A transaction occurring when both the sender and receiver are registered with or identified by PayPal as residents of the same market.

International

A transaction occurring when the sender and receiver are registered with or identified by PayPal as residents of different markets. Certain markets are grouped together when calculating international transaction rates. For a listing of our groupings, please access our [Market/Region Grouping Table](#).

Tiered rate plan for receiving domestic transactions

The tiered rate plan is an optional pricing plan available on request. To request enrolment in the tiered rate plan, you must [contact us](#). The tiered rate plan is subject to your acceptance of updated terms with PayPal. If you are enrolled in the tiered rate plan, your rate for eligible commercial transactions in a calendar month will be determined by your eligible commercial transaction volume in the previous calendar month, as follows:

Relevant Market/Region	Eligible commercial transactions volume in the previous calendar month	Rate
United Kingdom (UK), Guernsey (GG), Jersey (JE) and Isle of Man (IM)	0.00 - 4,000.00 GBP	2.9% + fixed fee
	More than 4,000.00 GBP up to 8,000.00 GBP	2.4% + fixed fee

Relevant Market/Region	Eligible commercial transactions volume in the previous calendar month	Rate
	More than 8,000.00 GBP	2.1% + fixed fee

Unless and until PayPal confirms your enrolment in the tiered rate plan, the standard rate for receiving domestic transactions will continue to apply.

For the purposes of the tiered rate plan, “eligible commercial transactions” means commercial transactions that are included in the calculation of your eligible commercial transaction volume. “Eligible commercial transaction volume” means the total net settled value of your domestic and international commercial transactions received in the previous calendar month that are charged at the [All Other Commercial Transactions rate](#) under this fee page.
