

## C0. Introduction

## C0.1

**(C0.1) Give a general description and introduction to your organization.**

PayPal Holdings, Inc. is a leading technology platform and digital payments company that enables digital and mobile payments on behalf of consumers and merchants worldwide. We provide safer and simpler ways for businesses of all sizes to accept payments from merchant websites, mobile devices, and applications, and at offline retail locations, through a wide range of payment solutions. We are committed to democratizing financial services and empowering people and businesses to join and thrive in the global economy. Our goal is to enable our consumers and merchants to manage and move their money anywhere in the world, anytime, on any platform and using any device. Our combined payment solutions, including our PayPal, PayPal Credit, Braintree, Venmo, Xoom, and iZettle products, compose our proprietary Payments Platform.

## C0.2

**(C0.2) State the start and end date of the year for which you are reporting data.**

	Start date	End date	Indicate if you are providing emissions data for past reporting years	Select the number of past reporting years you will be providing emissions data for
Row 1	January 1 2018	December 31 2018	Yes	1 year

## C0.3

**(C0.3) Select the countries/regions for which you will be supplying data.**

Australia  
 Brazil  
 Canada  
 China  
 China, Hong Kong Special Administrative Region  
 France  
 Germany  
 Guatemala  
 India  
 Ireland  
 Israel  
 Italy  
 Japan  
 Luxembourg  
 Mexico  
 Netherlands  
 Poland  
 Russian Federation  
 Singapore  
 Spain  
 Sweden  
 Switzerland  
 Turkey  
 United Kingdom of Great Britain and Northern Ireland  
 United States of America

## C0.4

**(C0.4) Select the currency used for all financial information disclosed throughout your response.**

USD

## C1. Governance

## C1.1

**(C1.1) Is there board-level oversight of climate-related issues within your organization?**

Yes

C1.2

(C1.2) Provide the highest management-level position(s) or committee(s) with responsibility for climate-related issues.

Name of the position(s) and/or committee(s)	Responsibility	Frequency of reporting to the board on climate-related issues
Other C-Suite Officer, please specify (Chief Business Affairs and Legal Officer)	Other, please specify (Development and execution of broad ESG strategy and programs including climate change.)	Quarterly

C1.3

(C1.3) Do you provide incentives for the management of climate-related issues, including the attainment of targets?

No

C2. Risks and opportunities

C2.2

(C2.2) Select the option that best describes how your organization's processes for identifying, assessing, and managing climate-related issues are integrated into your overall risk management.

There are no documented processes for identifying, assessing, and managing climate-related issues

C2.2e

(C2.2e) Why does your organization not have a process in place for identifying, assessing, and managing climate-related risks and opportunities, and do you plan to introduce such a process in the future?

	Primary reason	Please explain
Row 1	We are planning to introduce a risk identification, assessment, and management process in the next two years	PayPal continues to advance our program to manage climate-related risks and opportunities through a formal process and will further develop the system in the future. Currently, we identify and manage key climate change-related matters as they arise, but are working to create a more formal process for ongoing management.

C2.3

(C2.3) Have you identified any inherent climate-related risks with the potential to have a substantive financial or strategic impact on your business?

Yes

C2.3a

(C2.3a) Provide details of risks identified with the potential to have a substantive financial or strategic impact on your business.

Identifier

Risk 1

Where in the value chain does the risk driver occur?

Supply chain

Risk type

Transition risk

Primary climate-related risk driver

Market: Increased cost of raw materials

Type of financial impact

Increased production costs due to changing input prices (e.g., energy, water) and output requirements (e.g., waste treatment)

Company- specific description

We acknowledge that climate change may introduce risks in our supply chain that could increase operating costs. For example, a potential rise in fuel prices that could increase energy costs. We are currently taking steps to measure indirect (Scope 3) emissions in our supply chain to better understand the nature of supplier exposures to climate impacts.

Time horizon

Long-term

Likelihood

**Identifier**

Risk 2

**Where in the value chain does the risk driver occur?**

Direct operations

**Risk type**

Physical risk

**Primary climate-related risk driver**

Acute: Increased severity of extreme weather events such as cyclones and floods

**Type of financial impact**

Increased insurance premiums and potential for reduced availability of insurance on assets in "high-risk" locations

**Company- specific description**

We acknowledge that climate change may introduce physical risks to our direct operations from increased frequency and severity of extreme weather events. Our Global Safety and Security team develops, maintains, and executes emergency response plans, which include scenario planning and response procedures for such events. We are also investigating potential impacts of water stress to our direct operations.

**Time horizon**

Medium-term

**Likelihood**

More likely than not

**Magnitude of impact**

Risk 3

**Where in the value chain does the risk driver occur?**

Customer

**Risk type**

Transition risk

**Primary climate-related risk driver**

Reputation: Increased stakeholder concern or negative stakeholder feedback

**Type of financial impact**

Reduced demand for goods and/or services due to shift in consumer preferences

**Company- specific description**

We acknowledge that consumer and other stakeholder interest in climate mitigation may introduce reputation risk from certain merchant or product categories within our digital payments ecosystem. We carefully monitor stakeholder perception of our climate actions across our value chain and proactively engage stakeholder groups to address concerns and incorporate feedback into our business governance and strategy.

**Time horizon**

C6.10

---

(C6.10) Describe your gross global combined Scope 1 and 2 emissions for the reporting year in metric tons CO2e per unit currency total revenue and provide any additional intensity metrics that are appropriate to your business operations.

Intensity figure	0.0000044
Metric numerator (Gross global combined Scope 1 and 2 emissions)	68100
Metric denominator	unit total revenue
Metric denominator: Unit total	15450000000
Scope 2 figure used	Market-based
% change from previous year	16.4
Direction of change	Decreased
Reason for change	Annual direct GHG emissions remained relatively flat (<2% increase), while revenue increased substantially. See our 2019 Annual Report for more information on drivers of our 2018 financial performance.

C7. Emissions breakdowns

C7.9

(C7.9) How do your gross global emissions (Scope 1 and 2 combined) for the reporting year compare to those of the previous reporting year?  
Remained the same overall

C8. Energy

C8.2

(C8.2) Select which energy-related activities your organization has undertaken.

	Indicate whether your organization undertakes this energy-related activity
Consumption of fuel (excluding feedstocks)	Yes
Consumption of purchased or acquired electricity	Yes
Consumption of purchased or acquired heat	No
Consumption of purchased or acquired steam	No
Consumption of purchased or acquired cooling	No
Generation of electricity, heat, steam, or cooling	Yes

C8.2a

(C8.2a) Report your organization's energy consumption totals (excluding feedstocks) in MWh.

	Heating value	MWh from renewable sources	MWh from non-renewable sources	Total MWh
Consumption of fuel (excluding feedstock)	Unable to confirm heating value	0	25973	25973
