

AT PAYPAL, WE PUT PEOPLE AT THE CENTER OF EVERYTHING WE DO.

Founded in 1998, we continue to be at the forefront of the digital payments revolution, processing almost 12.5 million payments for our customers per day. PayPal gives people better ways to connect to their money and to each other, helping them send money without sharing financial information and with the flexibility to pay using their PayPal account balances, bank accounts, PayPal Credit and credit cards. PayPal is an eBay Inc. (Nasdaq: EBAY) company. In September 2014, eBay Inc. announced the planned separation of eBay and PayPal into independent publicly traded companies in the third quarter of 2015.

¹ Active customer account: An active customer account is a registered account that successfully sent or received at least one payment or payment reversal through our Payments Platform, excluding transactions processed through our gateway products, in the past 12 months. Our gateway products include our Payflow Payments and certain Braintree products. A payment gateway links a merchant's website to that merchant's processing network and merchant account.

² Number of payments: Total number of payments, net of payment reversals, successfully completed through our Payments Platform, excluding transactions processed through our gateway products.
