

PayPal Integration Instructions

Step 1

Log in to PrestaShop Admin.

Step 2

Select "Modules" > "Payment" on the top Navigation Bar.

Step 3

Select "Click to see the list of payment modules".

Payment	Keip
Payment modules list	
Click to see the list of payment modules.	
Payment module restrictions	
\$ Currency restrictions	
Please mark the checkbox(es) for the currency or currencies for which you want the payment module(s) to be available	ble.

Step 4

Scroll down to find "**PayPal (Addons)**" and click "**Install**" (go to Step 5 if it is already installed).

Step 5

Click "Configure".

If you just installed PayPal in Step 4, then you may need to wait a few moments for the configure link to appear.

Step 6

Select your solution:

- Select "Website Payments Standard" if you want to accept credit cards using PayPal.
- Select "Express Checkout" if your website is already accepting credit cards and you just want to add PayPal as an additional way for your customers to pay.

Step 7

Signup for your free PayPal Business Account.

- If you already have a PayPal Business Account, then skip this step.
- If you do not have a PayPal Business Account, then click "Sign Up" and create one.

Step 8

Process payments on your online shop:

- A. Click the "**Get My PayPal API Credentials**" button, and fill in the three API fields:
 - API username
 - API password
 - API signature
- B. Set the following **Configuration** options:
 - Express Checkout shortcut: Yes
 - Use a Sandbox: Live mode
 - Payment Type: Direct Sales
- C. Click Save.

PayPal will now be available in your PrestaShop shopping cart.

Note: If the "GET MY PAYPAL API CREDENTIALS" button is not available in your version of PrestaShop, then see the Appendix of this document for instructions on another way to obtain your PayPal API Credentials.
